# Upskilling SMEs for a Smarter Future

The SME4DD Project – “Training SMEs for the Digital Decade” started in 2023, and the main target is to develop the digital skills of the EU workforce, with a particular focus on SMEs. Achieving this goal, we offer short-term, practical training for SME professionals in Europe’s key digital technologies:

- ✓ Artificial Intelligence – smarter ways to work
- ✓ Blockchain – secure and modern record-keeping
- ✓ Cybersecurity – protect your data and your customers
