**Canon Research Centre France
1995 – 2000
Chercheur, puis Directeur de Projets**

At a glance

Europe is facing a significant innovation challenge...

A pair of hands is shown holding a small, translucent globe of the Earth. The hands are positioned at the top and bottom of the globe, with fingers slightly curled around it. The globe is semi-transparent, showing the continents in a light blue color against a darker blue background representing the oceans. The lighting is soft, highlighting the texture of the skin and the smooth surface of the globe.

...despite an excellent research base, dynamic companies and creative talent...good ideas are too rarely turned into new products or services

- Innovation is the key to growth, competitiveness and social well-being
- Europe needs a change of mind-set and a more innovative and entrepreneurial culture
- The European Institute of Innovation and Technology (EIT) and its KICs (Knowledge and Innovation Communities) were established to enhance Europe's ability to innovate by:
 - **ADAPTING QUICKLY**
 - **PROVIDE SOLUTIONS TO RAPIDLY EMERGING SOCIETAL PROBLEMS**
 - **MEET THE DEMANDS AND DESIRES OF CONSUMERS**

A European ecosystem reinforcing ICT Hot Spots

Germany	Netherlands	Finland	France	Sweden	Italy
Berlin, Munich	Eindhoven	Helsinki	Paris, Rennes, Sophia Antipolis	Stockholm	Trento

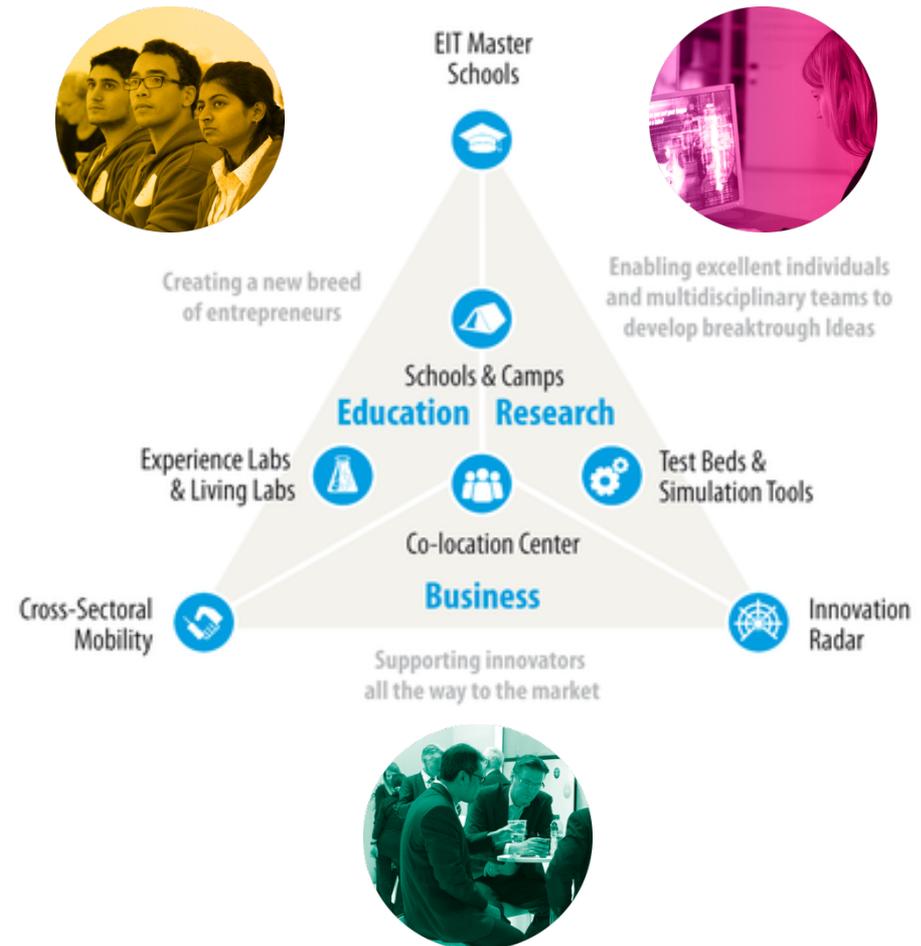

Berlin	Eindhoven	Helsinki	Paris	Stockholm	Trento

London in January 2014, followed by Budapest and Madrid

Bringing ICT Innovations to Life

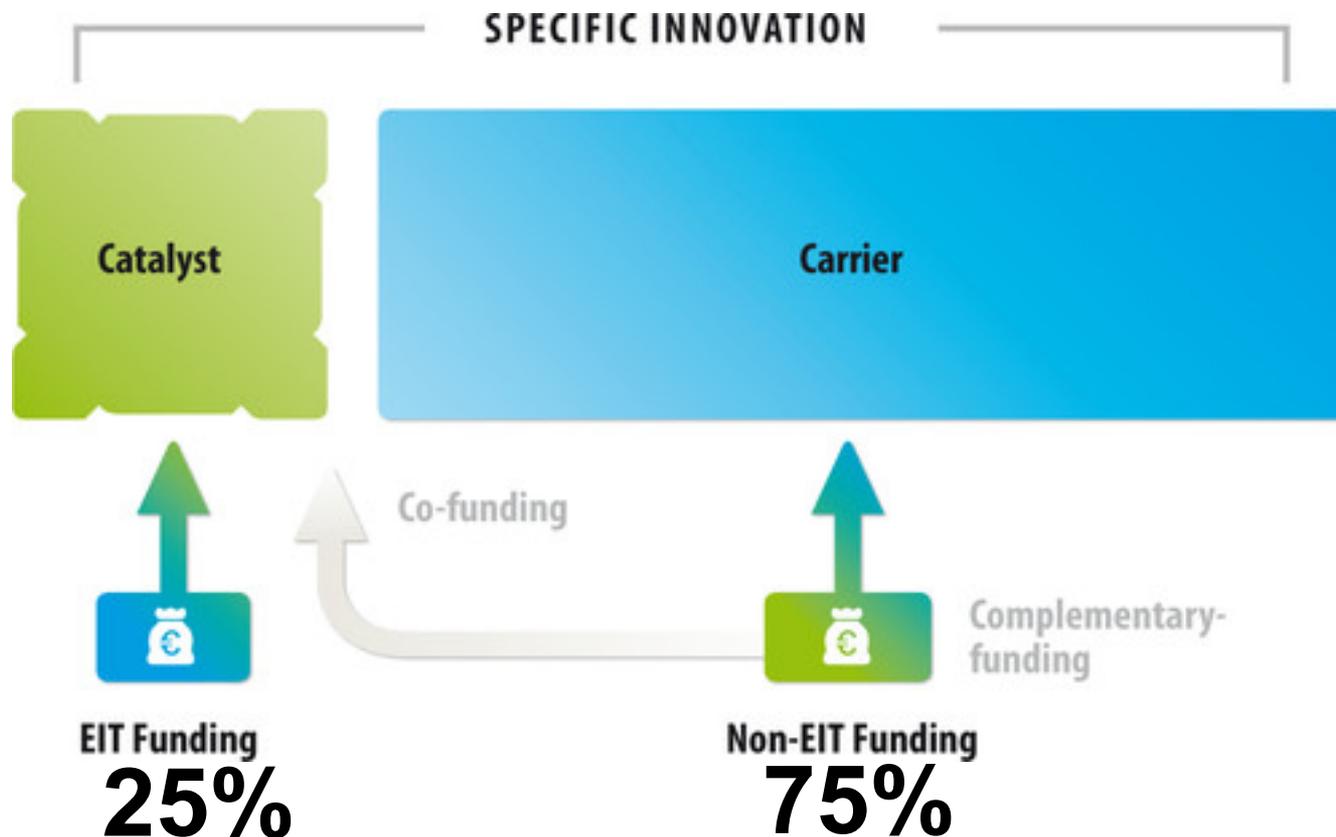

- Education, Research and Business - strong collaboration is needed to speed up ICT innovation in Europe
- From idea to product, from lab to market and from student to entrepreneur
- The mission of EIT ICT Labs is to **drive European leadership in ICT innovation for economic growth and quality of life**

The EIT ICT Labs' Investment Model

- The so-called "catalyst-carrier model" is a key means to realise the innovation cycle
- The application of a catalyst should create significant added value towards the European innovation agenda and the goals of EIT

Empowering ICT Top Talents for the Future

- Master School
 - A pan-European 2 year Master programme in ICT innovation and Entrepreneurship
 - 19 top-universities to establish a joint innovative programme of seven tracks and an integrated I&E module
- Doctoral Program in ICT
 - Doctoral School operating in Doctoral Training Centres within the co-location centres
 - Combines doctoral students, industrial needs and Innovation & Entrepreneurship

Boosting Innovation from Research

- To generate know-ledge that leads to new innovative products, services, and to the generation of patents by
 - **Collaborative maturation (techno + Biz) at European level**
 - **networking** such as the organisation of thematic workshops and meetings
 - access to the state-of-the art **Test beds** and Experience and Living Labs

It's all about Business

- The Business Development Accelerator - a funnel with two phases
 - scouting of innovative SMEs and technologies
 - coaching innovative SMEs to deliver European growth success

EIT ICT LABS INNOVATION BOOSTER AIMS AT CREATING EUROPEAN SUCCESS STORIES.

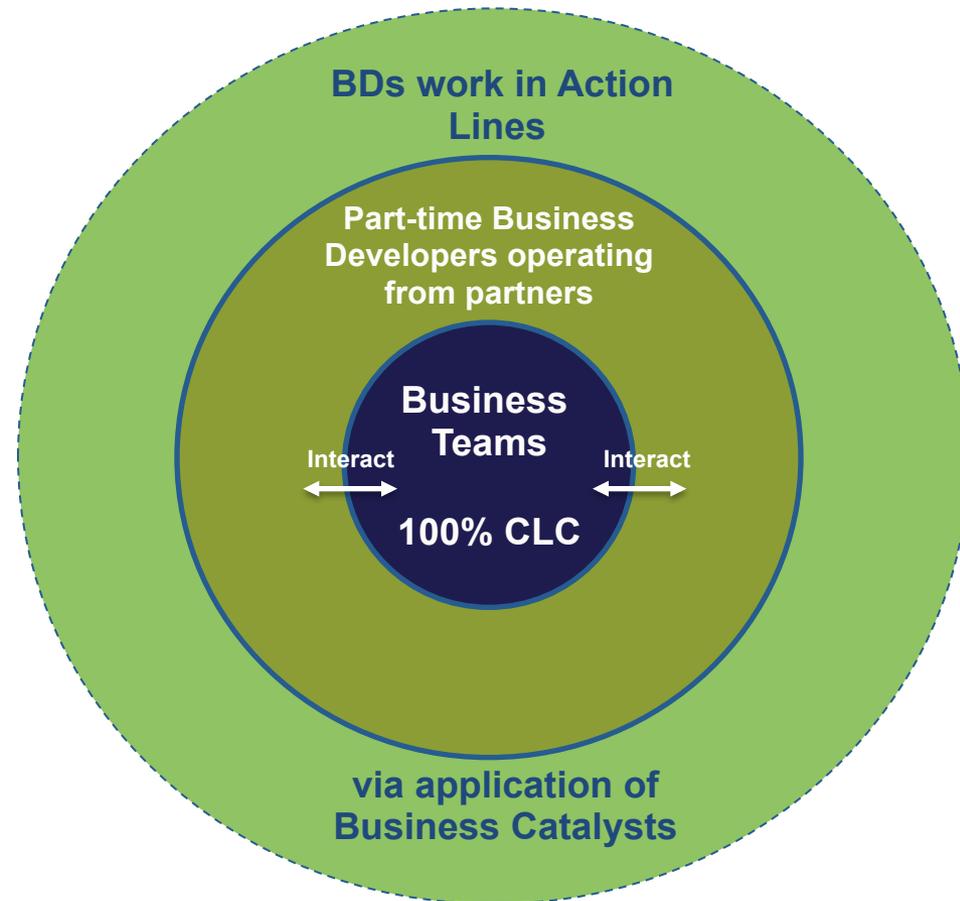

An agile way to promote local success stories at European level

Business Development Team

- The Core Business Developers are the “spider in the web” supported by Business Developers from partners.
- They all apply the Business Catalysts in Action Lines through detecting, evaluating and driving the exploitation of innovation opportunities via
 - business creation and growing of SME’s on a European level
 - large industry by match-making for technologies, ventures and SME’s.

Our Innovation Areas – the Action Lines - where Innovation takes place

INNOVATION IN ICT:

- **Future Cloud**
- Future Network Solutions
- Privacy, Security & Trust in Information Society

INNOVATION WITH ICT:

- Cyber-Physical Systems
- **Future Urban Life and Mobility**
- Health & Wellbeing
- Smart Energy Systems
- Smart Spaces

INNOVATION IN EDUCATION:

- Master School
- Doctoral School

There's nothing like Success

Coached Company	Node	Thematic Action Line
Smart Signs bv	Netherlands	Smart Spaces / Future Urban Life & Mobility
CED/Diagnostics	Netherlands	H&WB
MagnaView	Netherlands	Future Media
Telcred	Sweden	Smart Spaces
Komoot	Germany	H&WB / Future Urban Life & Mobility
HPC	France	Smart Energy / Future Urban Life & Mobility
E3S	France	Future Media
Login People	France	Future Media
Script & Go	France	Future Media
IP Label	France	Future Media
Backelite	France	Future Media
Green Communications	France	Digital Cities
Innorange	Finland	Smart Spaces
CLS	Italy	Smart Spaces / Future Media
Practix	Italy	Smart Spaces
Fabrica Ludens	Italy	Smart Spaces
RSens	Italy	Smart Energy
U-Hopper	Italy	Future Urban Life & Mobility
SayService	Italy	Future Urban Life & Mobility
